Meeting Number: 173 510 4832

Password: 2ENkTJHJF24

To join by phone: 1-844-621-3956

Purpose

The purpose of this meeting is to develop the 2021 Fishery Performance Report (FPR; produced by the Advisory Panel Members). The intent of this report is to facilitate a venue for structured input from the Advisory Panel members for the bluefish specifications processes, including recommendations by the Council and its Scientific and Statistical Committee (SSC).

The 2021 FPR that the AP will produce, in addition to other information, will be reviewed by the SSC at the July (21-23) meeting. The SSC will recommend ABCs for 2022-2023. Then, the Monitoring Committee will recommend bluefish catch and landings limits for 2022-2023. Finally, the Council will review these recommendations and take action at the August Council meeting.

Agenda

9:00 a.m. Convene

9:00 a.m. to 9:05 a.m.

- Introductions
- Purpose and need for this meeting
