Meeting Objective

The purpose of this meeting is for the Advisory Panels to review and comment on recent stock assessment information for summer flounder, as well as the reports and recommendations of the Council's Scientific and Statistical Committee (SSC) and Monitoring Committee regarding revised 2019 summer flounder specifications (i.e., catch and landings limits and management measures) as well as expected new specifications for 2020-2021. The AP will also provide recommendations on recreational management measures for summer flounder in 2019.
