### **ASMFC American Lobster Board Releases American Lobster Draft Addendum XXIX/Jonah Crab Draft Addendum IV for Public Comment**

***Public Hearings and Webinars Scheduled for January 2022***

Arlington, VA – The Commission’s American Lobster Management Board has approved for public comment Draft Addendum XXIX to Amendment 3 to the Interstate Fishery Management Plan (FMP) for American Lobster and Draft Addendum IV to the Jonah Crab FMP. The Draft Addenda were initiated in August 2020 to consider implementing electronic tracking requirements for federally-permitted vessels in the American lobster and Jonah crab fisheries, with the objective of collecting high resolution spatial and temporal effort data.

The collection of enhanced spatial and temporal data via electronic tracking devices in the offshore fishery would support managers in addressing a number of challenges facing the fishery. Electronic tracking data would greatly improve the stock assessment’s ability to estimate exploitation and abundance for American lobster, as the trackers would allow size composition data to be linked to harvest at a finer spatial resolution than what is currently possible. Additionally, the data could improve the models used to assess the location of vertical lines in the fishery and their associated risk to endangered North Atlantic right whales, which could impact federal risk reduction requirements for the fishery. Characterizing the footprint of the U.S. lobster fishery will also be critical to ocean planning efforts to minimize spatial conflicts with other ocean uses such as aquaculture, marine protected areas, and offshore energy development, as well as provide fishery managers tools to help maintain industry fishing grounds. Last, the efficiency of law enforcement efforts could be significantly improved with data to help enforcement officials locate widely dispersed gear in the offshore fishery.

The Commission and its member states from Maine to Virginia will be conducting a series of hearings to gather public input on the Draft Addenda. Due to the COVID-19 pandemic, most hearings will be conducted via webinar; some hearings will be state-specific and others regionally-focused. Public hearing information, webinar links, and call-in information are below. Please note that in order to

The Draft Addenda include two options for proposed management programs. The first is status quo or no changes to the current program, and the second is to implement electronic tracking requirements for federally-permitted American lobster and Jonah crab vessels with commercial trap gear area permits for Lobster Conservation Management Areas 1 through 5 and Outer Cape Cod. Under this option, the specified permit holders would be required to install an approved electronic vessel tracking device to their vessel prior to beginning a fishing trip to collect and transmit spatial data. The devices

would collect vessel locations every minute, which would allow for the distinction between transiting and fishing activity, as well as the estimation of traps per trawl. The Draft Addenda also describe administrative processes at the Commission, state, and federal levels for successful implementation of the management program to ensure the data collected meet the needs of state and federal partners.

### **Webinar Instructions**

To register for a public hearing webinar please click [HERE](#) and select the hearing(s) you plan to attend from the dropdown menu. Hearings will be held via GoToWebinar, and you can join the webinar from your computer, tablet or smartphone. If you are new to GoToWebinar, you can download the software ([click here](#)) or via the App store under GoToWebinar. We recommend you register for the hearing well in advance of the hearing since GoToWebinar will provide you with a link to test your device's compatibility with the webinar. If you find your device is not compatible, please contact the Commission at [info@asmfc.org](mailto:info@asmfc.org) (subject line: GoToWebinar help) and we will try to get you connected. We also strongly encourage participants to **use the computer voice over internet (VoIP)** so you can ask questions and provide input at the hearing. Those joining by phone only, will be limited to listening to the presentation but will not be able to provide input during the hearing. In those cases, you can send your comments to staff via email, U.S. mail, or fax at any time during the public comment period. To attend the webinar in listen only mode, dial 1-877-309-2071 and enter access code 350-416-497.

The Commission will also post a recording of the hearing presentation on the Commission's YouTube page so that stakeholders may watch the presentation and submit comment at any time during the comment process. This recording will be available in early January; a subsequent press release will announce the availability of the recording.
