ASMFC Coastal Pelagics Board Sets Atlantic Cobia Total Harvest Quota for 2024-2026 Fishing Seasons

Arlington, VA – The Commission’s Coastal Pelagics Management Board approved a total harvest quota for the Atlantic migratory group of cobia of 80,112 fish for the 2024-2026 fishing seasons. This total quota results in a coastwide recreational quota of 76,908 fish and commercial quota of 73,116 pounds.

The total quota level was first approved in February 2020 for the 2020-2022 fishing seasons. In 2021, the Board changed the cobia quota timeframe from 2020-2022 to 2021-2023. Based on the recommendation from the Technical Committee and in the absence of a new stock assessment, the Board has set the 2024-2026 total harvest quota equal to the 2023 total harvest quota of 80,112 fish.

A new stock assessment for Atlantic migratory group of cobia is scheduled for 2025, with the potential to inform 2026 or later total harvest quotas. The Board will meet in October 2023 to consider new recreational management measures for some states. For more information, please contact Chelsea Tuohy, Fishery Management Plan Coordinator, at ctuohy@asmfc.org.

PR23-21

The Atlantic States Marine Fisheries Commission was formed by the 15 Atlantic coastal states in 1942 for the promotion and protection of coastal fishery resources. The Commission serves as a deliberative body of the Atlantic coastal states, coordinating the conservation and management of nearshore fishery resources, including marine, shell and diadromous species.
